DETAILED IMPACT LOGIC.

SKILL OVNA

INPUT

Funding: Secure funding for the business:

- For Campaigns
- For Events
- For the Platform
- For Operations
- For Promotion

Partnership:

- Partnership with vocational business in Munich.
- Partnership with gymnasiums in Munich.

Network:

- Build a network with educational institutions, professionals and policy makers that would be interested in supporting our social startup.
- Build a network of successful professionals for storytelling and mentoring.

OUTPUT

Promotion: Launching social media campaigns to promote vocational education.
(Number of launched campaigns, views, clicks)

Content: Have a wide range of success story videos and content.
(people remaining on the video, number of videos, number of ambassadors)

Events: Host career fairs and workshops for about vocational education and get hands on experience.
(number of fairs, number of attendees, next stage participants)

Launch: interactive platform that offers feature that links students to the appropriate vocational business or vocational educational institutions (have at least 50% of pupils in partnered gymnasiums to create an account on our platform.)

OUTCOME

Awareness: Increase awareness of vocational education benefits and opportunities among gymnasium students and parents
(measured via sentiment analysis from social media and survey).

Enrollment growth: Achieve a 5% increase in gymnasium students enrolling in vocational education programs (tracked through school and industry data, closed deals).

Collaboration: Establish formal cooperation agreements between 50% of participating businesses and educational institutions.
(to have an active account on our platform)

Social Media outreach: have a network of influencers and other accounts with a total reach of 10k followers.
(tracked through social media statistics)

IMPACT

Skilled Worker Supply: Contribute to reducing Fachkräftemangel by increasing skilled worker availability in partnered industries.
(% decrease in the skilled worker shortage, number of Skillovna users transitioning to the workforce)

Perception: Reshape the perception and improve societal appreciation for vocational education and careers.
(% increase in vocational education enrollment)

Economic Impact: Enhance Germany's labor market competitiveness by maintaining a balanced supply of skilled workers and reducing dependency on external labor markets.
(tracking positive development in the areas of skilled worker shortage and unemployment rates)

ANNA WINTOUR: From Fashion Assistant to Iconic Editor

Anna Wintour, now one of the most influential figures in fashion, didn't take the traditional university route. Instead, she gained hands-on experience through an entry-level job at a fashion boutique, followed by an apprenticeship-like role at Harper's & Queen in London. Her practical training in the fashion industry helped her climb the ranks, eventually leading her to become the long-time Editor-in-Chief of Vogue. Her story proves that real-world experience and determination can be just as powerful as formal education in building a successful career.

PERSONAL SKILL AND INTEREST ASSESSMENT

The goal of this tool is to **help you understand your strengths, interests, and skills to discover exciting career and learning opportunities.**

This survey focuses on the following areas:

A. Talking and Sharing Ideas (Communication Skills)

B. Solving Problems (Problem-Solving Ability)

C. Being Creative and Innovative (Creativity and Innovation)

D. Using Tools and Technology (Technical Skills)

E. Working in Teams (Teamwork and Collaboration)

F. Staying organized and on Track (Time Management and Focus)

Each section includes **simple questions, real-life scenarios,** and **open-ended answers** to help us learn more about you.

At the end of the survey, you'll get:

- A personalized description of your strengths and areas for growth.

- Suggestions for careers, education paths, and resources that match your profile.

There are no right or wrong answers—just be yourself! Let's start exploring your future!
